- Javascript, jQuery, AJAX, Rest APIs
- Node.js, Express.js, MySQL, Sequelize
- Handlebars.js, ORM, MongoDB, React.js, ES6.
- Team development and cohesion
- Adobe Photoshop
- Zoom Communications

PROJECTS

Order Me This | <https://github.com/melperez19/Project-3--Order-Me-This-App>

My Role

Deployed version found at <https://powerful-journey-65247.herokuapp.com/>

User Authentication

An ordering application that makes organizing event runs much easier. Created as a group collaboration.

- Guests are invited to sign up and log in to start creating events such as lunch runs, office supply orders, etc.
- Once logged in, guests now become hosts and are able to invite others to participate in an ordering event via email in an organized summary of events page.
- Tools - React.js, React-Reveal, Context API, EmailJS, AgGrid, Material-UI, MDBReact, Cookie-Sessions, MomentJS

MongoDB Article-Scraper | <https://github.com/melperez19/MongoDB-Article-Scraper>

My Role

Deployed version found at <https://mongodb-article-scraper.herokuapp.com/>

Full Stack Development

An app that scrapes articles from the GreenMedInfo website and lets users save articles and leave comments on latest news.

- Scrapes articles by clicking the "Scrape Articles" button. Once articles are loaded, you can read the full article by clicking the link in each article's panel and save articles by clicking the "Save Article" button.
- Saved articles can be viewed at the "Saved Articles" page. Comments can be added on saved articles by clicking the "Add a Note" button. Saved articles can be deleted by clicking the "Delete" button.
- Tools - NodeJS, ExpressJS, HandlebarsJS, MongoDB, Mongoose, Bootstrap and CSS, cheerio, axios, morgan

Bamazon | <https://github.com/melperez19/Bamazon>

My Role

Video Demo found at <https://www.youtube.com/watch?v=RWs7zeapTjM&feature=youtu.be>

Back End Development

And also at <https://www.youtube.com/watch?v=aURXbVDItV0&feature=youtu.be>

An Amazon-Like storefront application that takes in orders from customers and depletes stock from the store's inventory.

- A manager specific interface was created as well to allow the viewing of all inventory, low inventory, adding more stock, and adding new products. Every edit is automatically updated to the Bamazon database.
- Tools - Node.js and MySQL

EDUCATION

University of Arizona, The Live Online Coding Bootcamp – Certification, Full Stack Web Development

An intensive 24-week long boot camp dedicated to designing and building web applications. Skills learned consisted of HTML5, CSS3, Javascript, JQuery, Bootstrap, Firebase, Node Js, MySQL, MongoDB, Express, Handlebars JS, & React Js.

Georgian Court University, Lakewood, New Jersey – B.A. in Art and Art History

WORK EXPERIENCE

Digital Finishing Operator– *Deluxe Corporation*– Mountain Lakes, NJ

2015- Present

Knowledgeable in Banner Printing/Finishing, Saddle-Stitch Finishing, Digital Proof Finishing, and CTP Imaging for PsPrint (a Deluxe Corporation company).

Key Accomplishments:

- Promoted several times after excelling in handling multiple priorities.
- Created manual documentation for banner printing and CTP processes while training other employees.
- Obtained a Bronze LEAN Champion Certification in 2018

Archive Generalist and Image Editor– *Metaverse Corporation*– South Brunswick, NJ

2011- 2015

Archived and maintained art prints being sold via Metaverse's main project, Fulcrumgallery.com, which is a successful online art and framing company

Key Accomplishments:

- Prepared data for alphabetic and numeric computer entry and combined files to eliminate the duplication of data.
- Edited scanned images of art prints using Adobe Photoshop and uploaded to the company website with accuracy.
- Kept a student mentality, always learning to become a more versatile employee.
